CONTENTS OF VOLUME 23

Vol. 23, No. 1

Arun P. Kulkarni, John Edwards and Ira S. Richards	1	Metabolism of 1,2-dibromoethane in the human fetal liver
A. Calignano, P. Persico, F. Mancuso and L. Sorrentino	7	Adenosine release in morphine-induced hypotension in rats
Tsutomu Suzuki, Hiroshi Motegi, Kokichi Otani, Yoko Koike and Miwa Misawa	11	Susceptibility to, tolerance to, and physical dependence on ethanol and barbital in two inbred strains of rats
Bruce A. Scharf, Robert F. Fricke and Steven I. Baskin	19	Comparison of methemoglobin formers in protection against the toxic effects of cyanide
Chantal M. Boulanger and Paul M. Vanhoutte	27	Cholera toxin augments the release of endothelium-derived relaxing factor evoked by bradykinin and the calcium ionophore A23187
G. M. Salido, J. Singh, C. L. Render and P. J. Camello	33	Secretagogue-evoked time-course changes on pancreatic juice secretion in the anaesthetized rat
S. Evangelista, Daniela Renzi, Paola Guzzi, C. Surrenti, P. Santicioli and C. A. Maggi	39	Capsaicin-like activity of *N*-ethylmaleimide in rat stomach
Hakan Gürdal, H. Ongun Onaran and F. Cankat Tulunay	43	Role of α-adrenoceptors in the effects of buspirone and 5-carboxamidotryptamine in rabbit isolated thoracic aorta
Helena Kurishingal, Paola Palanza and Paul F. Brain	49	Effects of exposure of pregnant mice to chlordiazepoxide (CDP) on the development and ultrasound production of their offspring
A. N. Elias, I. Gordon, N. D. Vaziri, G. Chune, M. R. Pandian, G. Gwinup and R. Wesley	55	Effective portal insulin delivery with enzyme-protected capsules in pancreatectomized pigs
D. Staneva-Stoytcheva, N. Dantchev and P. Popov	61	Long-term treatment with different calcium- and calmodulin-antagonists induces changes in rat brain alpha-adrenoceptors
Stephen M. Richards, Kim A. Dora, Manthinda Hettiarachchi, Stephen Rattigan, Eric Q. Colquhoun and Michael G. Clark	65	A close association between vasoconstrictor-mediated uracil and lactate release by the perfused rat hindlimb
Hing-Chung Lee, John M. Hardman and Bert K. B. Lum	71	Effects of nicardipine in rats subjected to endotoxic shock
G. B. De Sarro, A. De Sarro, G. R. Trimarchi and G. Nistico	75	Effects of some calcium antagonists upon the activity of common antiepileptic compounds on sound-induced seizures in DBA/2 mice
Penelope A. Longhurst, Thomas P. Brotcke, Robert E. Leggett and Robert M. Levin	83	The influence of streptozotocin-induced diabetes mellitus on the sensitivity of rat urinary bladder body and base strips to changes in extracellular calcium
H. Soncul, L. Gökgöz, Ç. Karasu, K. Ayrancioğlu, A. Ersöz, M. Altan and A. Yener	89	Comparison of potassium and adenosine cardioplegia with or without verapamil in the isolated guinea pig heart
Y. Trolese-Mongheal, J. Barthelemy, M. Paire and P. Duchene-Marullaz	95	Arrhythmogenic potencies of amrinone and milrinone in unanesthetized dogs with myocardial infarct

Klaas Kramer, Hans-Peter Voss, Joop A. Grimbergen, Corine Smink, Hendrik Timmerman and **Aalt Bast**	105	Glutathione mobilization during cerebral ischemia and reperfusion in the rat
Tore K. Uski and **Edward D. Högestätt**	109	Effects of various cyclooxygenase and lipoxygenase metabolites on guinea-pig cerebral arteries
Tsutomu Araki, Hiroyuki Kato and **Kyuya Kogure**	115	Protective effect of a novel vinca alkaloid derivative, vinconate, against alterations in binding sites of second messengers after transient cerebral ischemia in gerbils
G. Csaba and **Ágnes Inczefi-Gonda**	123	Benzpyrene exposure at 15 days of prenatal life reduces the binding capacity of thymic glucocorticoid receptors in adulthood
W. Alves-do-Prado, A. P. Corrado and **W. A. Prado**	125	Effects of atropine, pirenzepine, imipramine, and phenothiazines on the mammalian neuromuscular junction
K. E. H. El Tahir, A. M. H. Al-Kharji and **A. M. Ageel**	131	Effect of praziquantel and oxamniquine on prostacyclin synthesis by the rat arterial and myometrial tissues
Tsutomu Araki, Hiroyuki Kato and **Kyuya Kogure**	141	Protective effect of vinconate, a novel vinca alkaloid derivative, on glucose utilization and brain edema in a new rat model of middle cerebral artery occlusion
Book Reviews	147	

Vol. 23, No. 2

M. Kirkova, T. Kassabova and **E. Russanov**	151	*In vivo* effects of indomethacin—II. Antioxidant enzymes in metal-deficient rats
L. A. Skoglund, K. Ingebrigtsen, P. Lausund and **I. Nafstad**	155	Plasma concentration of paracetamol and its major metabolites after p.o. dosing with paracetamol or concurrent administration of paracetamol and its *N*-acetyl-DL-methionine ester in mice
N. Pages, M. Orosco, C. Rouch, G. Fournier, E. Comoy and **C. Bohuon**	159	Brain and adrenal monoamines and neuropeptide Y in codeine tolerant rats
Masakazu Nishimura, Kikuko Tsubaki and **Osamu Yagasaki**	165	Diversity among mouse motor nerve terminals with respect to release transmitter quanta
Richard A. Bond and **Paul M. Vanhoutte**	171	Interaction of tertatolol at the "atypical" or beta$_3$-adrenoceptor in guinea-pig ileum
P. D. Williams, W. E. Colbert, T. J. Shetler and **J. A. Turk**	177	Comparative pharmacological profile of muscarinic agonists in the isolated ileum, the pithed rat, and the mouse charcoal meal transit test
A. Serdar Soydan, Mehmet Ugur, Özlem Yazar and **R. Kazim Türker**	187	Further studies on the potent positive chronotropic effect of (15S)-15-methyl-prostaglandin E_1 on the guinea-pig isolated spontaneously beating right atrium
Robert L. Stephens Jr and **Ralf G. Rahwan**	193	Antiulcer activity of the calcium antagonist propylmethylenedioxyindene—V. Localization of site of action
H. Zhang, N. Stockbridge, B. Weir, B. Vollrath and **D. Cook**	197	Vasodilatation of canine cerebral arteries by nicorandil, pinacidil and lemakalim
B. L. Slomiany, J. Piotrowski, H. Mojtahed and **A. Slomiany**	203	Ebrotidine effect on the proteolytic and lipolytic activities of *Helicobacter pylori*
K. Koike, I. Takayanagi, S. Takiguchi, Y. Urita and **N. Miyake**	207	Ca-Blocking action of stereoisomers of CI-951, (+)-CI-951 (NC-1500) and (−)-CI-951 in the isolated muscle preparations

Contents

Shigeru Hishinuma, Ikuko Hongo, Masaatsu K. Uchida and Masanori Kurokawa — 211 Haloperidol differentiates smooth muscle contractions induced by release of intracellularly stored Ca and by influx of extracellular Ca

E. Kunec-Vajić, N. Bernat and D. Muačević-Katanec — 217 Effect of hypolipidemic drugs on cholinesterase activity in the rat

Jovan Savić, Vladislav M. Varagić, Milica Š. Prostran, Stojanka Vujnov, Marija Mihajlović and Dragan Djurdjević — 221 The effect of physostigmine on the haemorrhagic hypovolemia in anaesthetized rabbits

George Amabeoku — 225 Involvement of GABAergic mechanisms in chloroquine-induced seizures in mice

Delia M. Walsh, Peter J. Elliott and Russell M. Hagan — 231 Role of NK-2 receptors in the antidipsogenic activity of neurokinins in the mouse

J. H. Connick, G. C. Heywood, G. J. Sills, G. G. Thompson, M. J. Brodie and T. W. Stone — 235 Nicotinylalanine increases cerebral kynurenic acid content and has anticonvulsant activity

Gabriela B. Acosta, Matilde E. Otero Losada and Modesto C. Rubio — 241 Changes in GABAergic function after chronic chemical stress

G. Pinardi, C. Brieva, R. Vinet and M. Penna — 245 Effects of chronic ethanol consumption on α-adrenergic-induced contractions in rat thoracic aorta

Rolando Gonzalez, Rodrigo Urrea, Mauricio Gonzalez, Nibaldo C. Inestrosa and Enrique Brandan — 249 Isolation of proteoglycans synthesized by rat heart: evidence for the presence of several distinct forms

F. Orallo, M. Salaices, M. J. Alonso, J. Marín and P. Sánchez-García — 257 Effects of several calcium channels modulators on the [^{3}H]noradrenaline release and ^{45}Ca influx in the rat vas deferens

A. Encabo, M. Ferrer, J. Marín, J. Villamor and G. Balfagón — 263 Vasoconstrictive responses elicited by endothelin in bovine cerebral arteries

Helen Douglas and Ian Kitchen — 269 Mechanisms involved in the cardiovascular responses to opioid products of proenkephalin in the anaesthetised rat

Hidehiko Moromizato, Hiroko Miyagi, Michio Nakayama, Makie Higuchi and Matao Sakanashi — 279 Effects of ouabain on contractile response to norepinephrine in isolated rat aorta

Hidehiko Moromizato, Hiroko Miyagi, Michio Nakayama, Makie Higuchi and Matao Sakanashi — 285 Enhancement of vascular contractility by plasma substances obtained from pregnancy-induced hypertension

A. I. Fernandez, B. Cantabrana and A. Hidalgo — 291 Mediators involved in the rat uterus contraction in calcium-free solution

J. P. De La Cruz, J. M. Mata and F. Sanchez De La Cuesta — 297 Triflusal vs aspirin on the inhibition of human platelet and vascular cyclooxygenase

Book Reviews — 301

Vol. 23, No. 3

Minireviews

Ian Kennedy, Mark Gurden and Peter Strong — 303 Do adenosine A_3 receptors exist?

Hideharu Tatebayashi and Nobukuni Ogata — 309 — $GABA_B$-mediated modulation of the voltage-gated Ca^{2+} channels

General Papers

I. D. Nelson and H. Huddart — 317 — The nature of the acetylcholine receptor in a *Buccinum* proboscis muscle examined by the sucrose-gap voltage clamp technique

Kazuhide Ogino, Toru Kinugawa, Noriyasu Noguchi, Hideyuki Kitamura, Tatsuhiko Matsumoto, Hiroyuki Miyakoda, Hiroshi Kotake and Hiroto Mashiba — 325 — Suppression of sympathetic nervous system activity by nicorandil during exercise

Raymond M. Dawson and Michael Poretski — 331 — Assessment of a model for the opposing effects of *N*-ethylmaleimide on the affinity of muscarinic agonists for M2 receptors

Wataru Asakura, Kinzo Matsumoto, Hiroyuki Ohta and Hiroshi Watanabe — 337 — REM sleep deprivation decreases apomorphine-induced stimulation of locomotor activity but not stereotyped behavior in mice

Ken-Ichi Kishii Toshihiro Morimoto, Noriko Nakajima, Michihiko Tsujitani and Issei Takayanagi — 343 — Endothelium-dependent vasodilation by LP-805, a novel vasodilating agent, on rat thoracic aorta

Ken-Ichi Kishii, Toshihiro Morimoto, Noriko Nakajima, Kyoto Yamazaki, Michihiko Tsujitani and Issei Takayanagi — 347 — Effects of LP-805, a novel vasorelaxant agent, a potassium channel opener, on rat thoracic aorta

Ken-Ichi Kishii, Masato Inazu, Toshihiro Morimoto, Michihiko Tsujitani and Issei Takayanagi — 355 — Effects of LP-805, a new vasodilating agent, on cytosolic Ca^{2+} and contraction in vascular smooth muscle of rat aorta

Ken-Ichi Kishii, Masato Inazu, Toshihiro Morimoto, Michihiko Tsujitani and Issei Takayanagi — 365 — Effects of LP-805, a new vasodilating agent, on rat thoracic aorta

Ivor S. Ebenezer, Abigail J. Houston and Tracy J. Crook — 375 — Systemic administration of baclofen inhibits water intake in rats

Antonio Camins, Francesc X. Sureda, Jorge Camarasa and Elena Escubedo — 381 — Specific binding sites for [^{3}H]Ro 5-4864 in rat prostate and seminal vesicle

Yoshifumi Kanemaru, Magdalena J. Rossowska, Shoichi Yoshino, Malektaj Yazdani, C. H. Narayanan and Tetsuo Nakamoto — 385 — Effects of caffeine on the DNA and protein synthesis of the protein-energy malnourished neonatal cardiac muscle cells in culture

Tadashi Kusama, Yoshie Murakoshi and Hajime Murakami — 391 — Contractile response of guinea pig ileum by repetitive application of morphine

Cristoforo Scavone, Moacyr Luiz Aizenstein, Cleopatra da Silva Planeta and Roberto De Lucia — 397 — Long-term effects of imipramine on striatal dopamine autoreceptor function: involvement of both noradrenergic and serotonergic systems

Stefan Herzig — 403 — Marked dependence of the cardiac effects of gallopamil on the extracellular K^+-concentration

N. Satake, S. Kiyoto, Q. Zhou, M. Matsuo and S. Shibata — 409 — Mode of relaxing action of FK336, a new antianginal agent, in rabbit aorta

Katsuhiko Hatake, Ichiro Wakabayashi, Eizo Kakishita and Shigeru Hishida — 417 — Effect of aging on contractile response to KCl, norepinephrine and 5-hydroxytryptamine in isolated human basilar artery

Isabel Serrano, Rosa M. Ruiz, José S. Serrano and Ana Fernández — 421 — GABAergic and cholinergic mediation in the antinociceptive action of homotaurine

M. R. Zarrindast, A. Hajian-Heydari and T. Hoseini-Nia — 427 — Characterization of dopamine receptors involved in apomorphine-induced pecking in pigeons

G. M. Lew	431	Changes in microtubule-associated tau protein in human neuroblastoma cells after phencyclidine
L. Gökgöz, H. Soncul, V. Sinci, C. Karasu, M. Kaptanoğlu, A. Yener and A. Ersöz	435	Dipyridamole induced myocardial recovery after global ischemia
María S. Fernández-Alfonso, Carlos F. Sánchez-Ferrer, María Carmen Hernández and Jesús Marín	439	Na^+/Ca^{2+} exchange mediation in the ouabain-induced contraction in human placental vessels
K. Persson, A. Garcia-Pascual, F. Holmquist and K.-E. Andersson	445	Endothelin-1-induced contractions of isolated pig detrusor and vesical arterial smooth muscle: calcium dependence and phosphoinositide hydrolysis
B. L. Slomiany, S. Sengupta, E. Piotrowski, J. Piotrowski and A. Slomiany	455	Control of gastric mucus phospholipid content and composition by cholinergic and adrenergic mediators
Issei Takayanagi, Koji Shiraishi and Mitsutoshi Satoh	463	Effects of ageing on responses of rabbit iris smooth muscles to agonists and field stimulation
S. Thomas Abraham and Peter J. Rice	471	Absence of denervation supersensitivity to neurokinin A in the rat vas deferens
I. T. Gągalo, E. E. Hać and Z. Szreder	475	A comparative study on the effect of verapamil and prazosin on the thermoregulatory responses induced by cold or exogenous noradrenaline
E. M. Rego, A. P. Corrado and W. A. Prado	481	Antinociception induced by intracerebroventricular or intrathecal administration of gentamicin in rats
Tsutomu Suzuki, Yoko Koike, Saizo Yanaura, Frank R. George and Richard A. Meisch	487	Sex differences in physical dependence on pentobarbital in four inbred strains of rats
J. Luis Medina, Claudia Navarrete, Carolina Lama, Alejandro Roa, M. Antonieta Cruz and M. Isolde Rudolph	493	Nicotine stimulates adrenergic terminals and inhibits contractions of mouse uterine horns
I. Wade Waters, Kathleen P. Baran, Michael J. Schlosser, James E. Mack and W. Marvin Davis	497	Acute cardiovascular effects of methyl methacrylate monomer: characterization and modification by cholinergic blockade, adrenergic stimulation and calcium chloride infusion
M. Kirkova, T. Kassabova and E. Russanov	503	*In vivo* effects of indomethacin—I. Activity of antioxidant enzymes and lipid peroxidation
J. L. García-Roldán, J. Torres and J. Marín	509	α-Adrenoceptors involved on the cardiovascular response induced by mianserin in the pithed rat
M. A. Morales, L. Inostroza, T. Salazar and C. Paeile	515	Effects of clonixin on the electrical activity of cardiac pacemaker cells
Junko Nakasone, Toshihiro Matsuzaki, Yoko Aniya, Kimiko Uezu and Matao Sakanashi	523	Possibilities of the tolerance development to nipradilol and of the measurement of vascular glutathione content in isolated rat aorta
Violeta Mutafova-Yambolieva, Orlin Petkov, Dushka Staneva-Stoytcheva and Ljubka Lasova	529	Interactions between the effects of endothelin-1, clonidine and yohimbine on electrically-induced contractions in rat vas deferens
P. Dorigo, R. M. Gaion, P. Belluco, P. A. Borea, L. Guerra, L. Mosti, M. Floreani and F. Carpenedo	535	Antagonism towards endogenous adenosine and inhibition of cGI-PDE in the cardiac effects of amrinone, milrinone and related analogues
Genaro G. Ortiz, Ignacio Gonzalez-Burgos and Alfredo Feria-Velasco	543	Structural study of the acute effect of *Karwinskia humboldtiana* on cerebral motor cortex, hippocampus, and caudate nucleus of the rat

A. I. Fernandez, V. Martinez, B. Cantabrana and A. Hidalgo — 549 Differential effect of calcium and bay K 8644 on the inhibitory action of estrogens in the rat uterus

E. H. Mustafa, M. Abu Zarga and S. Abdalla — 555 Effects of cirsiliol, a flavone isolated from *Achillea fragrantissima*, on rat isolated ileum

Renato Gaggi, Laura Chirivi, Paola Roncada and Anna Maria Gianni — 561 Calcitonin enhances the effects of nimodipine on biogenic amines of rat brain

Antonio Carlos Bento and Sergio de Moraes — 565 Effects of estrogen pretreatment of the spare α_1-adrenoceptors and the slow and fast components of the contractile response of the isolated female rat aorta

Gerhard W. Kalmus, John E. Poulos and Charles W. O'Rear — 571 The effects of indomethacin on fibroblast chemotaxis

Vol. 23, No. 4

Minireview

T. B. Ng, W. Y. Chan and H. W. Yeung — 575 Proteins with abortifacient, ribosome inactivating, immunomodulatory, antitumor and anti-AIDS activities from Cucurbitaceae plants

General Papers

B. Uvelius, S. Lundin and K.-E. Andersson — 591 Contractile effect and tissue content of arginine vasopressin in the urinary bladder of Brattleboro rats with hereditary diabetes insipidus

Elisa Hiraichi, Lelia N. Schiripa, Norma Yamanouye, Fernando M. F. Abdalla and Zuleika P. Picarelli — 595 Effect of chymotrypsin on rat blood pressure

Juan Duarte, Francisco Pérez-Vizcaino, José Jimenez, Antonio Zarzuelo and Juan Tamargo — 601 Effects of aminophylline on contractions and ^{45}Ca uptake in isolated rat vascular smooth muscle

J. Jimenez, J. R. Calvo, P. Molinero, R. Goberna and J. M. Guerrero — 607 Chronic ethanol intake inhibits both the vasoactive intestinal peptide binding and the associated cyclic AMP production in rat enterocytes

Charles El Rawadi, Michèle Heimburger, Monique Davy, Michèle Midol-Monnet, Françoise Beslot and Yves Cohen — 613 Uptake of 5-hydroxytryptamine in rat isolated atria

Robert A. Urquhart and Kenneth J. Broadley — 619 The effects of P_1- and muscarinic-receptor agonists upon cAMP-dependent and independent inotropic responses of guinea-pig cardiac preparations

Ahmad Reza Dehpour and Mohammad Hossain Ghahremani — 627 Developmental changes in morphine and clonidine sensitivity of isolated chick oesophagus

Ahmad Reza Dehpour and Fatemeh Vazifehshenas — 631 Rabbit isolated vas deferens possess A_1 and A_2 adenosine receptors

Victor Sánchez-Margalet, Juan R. Calvo, Miguel Lucas and Raimundo Goberna — 637 Pancreastatin and its 33-49 C-terminal fragment inhibit glucagon-stimulated insulin *in vivo*

Yoshiaki Akimoto, Yoshiko Mochizuki, Akio Uda, Hiroaki Omata, Jun Shibutani, Hitoshi Nishimura, Masamichi Komiya, Kenji Kaneko and Akira Fujii — 639 Cefaclor concentrations in human serum, gingiva, mandibular bone, and dental follicle following a single oral administration

Contents

J. A. Sanchez Aparício, B. Cantabrana and A. Hidalgo	643	Effects of antiandrogens and progesterone on isolated rat uterus
S. E. Ohia, Y.-D. Cheung, D. Bieger and C. R. Triggle	649	Pharmacological profile of the 5-hydroxytryptamine receptor that mediates relaxation of rat oesophageal smooth muscle
Enzo Poli, Bruno Monica, Luciana Zappia,* Cristina Pozzoli and Giulio Bertaccini	659	Antimuscarinic activity of telenzepine on isolated human urinary bladder: no role for m1-muscarinic receptors
A. M. Buzaleh, R. Enriquez de Salamanca and A. M. del C. Batlle	665	Porphyrinogenic properties of the anesthetic enflurane
Mohammad-Reza Zarrindast, Shahrokh Shokravi and Morteza Samini	671	Opposite influences of dopaminergic receptor subtypes on penile erection
V. Alfaro and L. Palacios	677	Differential effects of hypothermia upon blood acid–base state and blood gases in sodium pentobarbital and urethane anaesthetised rats
C. Giunta, M. Cavaletto, L. Pergola, E. Pessione and P. Bracchino	683	Modulation of Na^+/K^+ pump in intact erythrocytes by cardioglycosides, steroid hormones and ouabain-like compounds
A. V. Terry Jr, Louis A. Silks III, R. B. Dunlap, J. D. Odom and J. W. Kosh	689	Selected biological activities of novel selenonium choline analogs
Keisuke Wada, Toshiya Itoh, Miki Nakagawa, Ryou Misao, Hidehiro Mori and Teruhiko Tamaya	693	Estrogen binding sites in peripheral blood monocytes and effects of danazol on their sites *in vitro*
H. L. Kim, I. H. Krakoff and R. A. Newman	701	Isolation of sesbanimide from the seed of *Sesbania vesicaria*
İclal Cakıcı, Nurettin Abacıoğlu, İlker Kanzık and Hakan Zengil	705	Biphasic effect of histamine on spontaneously beating rat atria
T. M. McWilliam, A. Liepins and A. J. Rankin	709	The effect of chronic and acute administration of deuterium oxide (D_2O) on vascular smooth muscle contraction in spontaneously hypertensive and Wistar–Kyoto rats
B. L. Slomiany, J. Liu, J. P. Keogh, J. Piotrowski and A. Slomiany	715	Enhancement of gastric mucosal epidermal growth factor and platelet-derived growth factor receptor expression by sucralfate
B. L. Slomiany, J. Piotrowski, V. L. N. Murty and A. Slomiany	719	Mechanism of ebrotidine protection against gastric mucosal injury induced by ethanol
Richard B. Walker, D. Mark Wood, M. Mateen Akmal and Eric Sharks	729	Effects of oxazolidines derived from (−) ephedrine in the rat
Péter P. Nánási, Timothy K. Knilans, Ira S. Richards, András Varró and David A. Lathrop	733	Biphasic effect of tetraethylammonium on canine Purkinje fibre action potential configuration
F. Sierralta and H. F. Miranda	739	Analgesic effect of benzodiazepines and flumazenil
Hideji Karibe, Takaaki Ishine and Masaatu K. Uchida	743	Calcium ion itself inhibits Ca-free contraction of various smooth muscles in response to adrenergic and cholinergic stimulations and to TPA in the absence of Ca channel blocker and EGTA
A. Lu, T. Oba, S. Yamano, T. Sako and M. Yamaguchi	747	Silver-induced frog skeletal muscle contraction and its modulation by calcium antagonists nifedipine and felodipine and calcium agonist Bay K 8644

GP 23/6—W

A. Calignano, A. Capasso, P. Persico, F. Mancuso and **L. Sorrentino**	753	Dexamethasone modifies morphine-, atropine-, verapamil-induced constipation in mice
Maura Floreani and **Francesca Carpenedo**	757	One- and two-electron reduction of menadione in guinea-pig and rat cardiac tissue
A. V. Ortiz de Urbina, M. Davy, M. Midol-Monnet, M. Heimburger, F. Beslot and **Y. Cohen**	763	Modulation of noradrenergic transmission in the rat isolated portal vein: role of prejunctional α_2-adrenoceptors and β-adrenoceptors
Yusuf Öztürk, Nuray Yıldızoğlu-Arı, Nilgün Altan and **V. Melih Altan**	769	Effect of lithium on gastro-intestinal complications in alloxan-diabetic rats
José V. Vásquez and **Gianni Pinardi**	775	Vasomotor responses in the isolated perfused external and internal carotid vascular beds of the rat
Kathleen P. Baran, W. Marvin Davis and **I. Wade Waters**	781	Effect of methyl methacrylate on isolated atria and interaction with isoproterenol, atropine and calcium chloride
Farid Rahnemaye Rabbani Nourani, Regina Celia Spadari and **Sergio De Moraes**	787	Footshock stress-induced supersensitivity to isoprenaline in the isolated pacemaker of the rat: effects of the compounds RU-38486 and RU-28362

M. Isolde Rudolph, Luis Bardisa, M. Antonieta Cruz and **Karin Reinicke**	833	Mast cells mediators evoke contractility and potentiate each other in mouse uterine horns
L. Quijada, A. Germany, A. Hernández and **E. Contreras**	837	Effects of calcium channel antagonists and Bay K 8644 on the analgesic response to pentazocine and U 50488H
Koji Shiraishi, Mami Moriya, Norihisa Miyake and **Issei Takayanagi**	843	Alpha$_1$-adrenoceptor blocking activities of bevantolol hydrochloride (NC-1400) and labetalol in rat isolated thoracic aorta—do they distinguish between subtypes?
Hiroyasu Satoh, Toshikatsu Nakashima and **Katsuharu Tsuchida**	847	The responses to phorbol esters which stimulated protein kinase C in canine Purkinje fibers
Angela De Sarro, Giuseppe R. Trimarchi, Domenico Ammendola and **Giovambattista De Sarro**	853	Repeated treatment with quinolones potentiates the seizures induced by aminophylline in genetically epilepsy-prone rats

Alessandro Chinellato, Eugenio Ragazzi, Luisa Pandolfo, Guglielmina Froldi, Laura Caparrotta and **Giuliana Fassina**	861	Pharmacological characterization of ATP receptors mediating vasodilation on isolated rabbit aorta
Yuko Hoshino, Tony J. Verbeuren, Helen Hughes and **Paul M. Vanhoutte**	867	Effects of S14001 on adrenergic neuroeffector interaction in isolated canine saphenous veins
P. N. Viglione, A. Praprotnik, P. M. Politi and **J. E. B. Pinto**	873	Comparison of acute effects of mitoxantrone and doxorubicin in guinea-pig atria
Renato Gaggi, Laura Chirivi, Paola Roncada and **Anna Maria Gianni**	881	Effects of nitrendipine and nisoldipine on biogenic amines in discrete areas of rat brain
Yong-Jiang Hei, Jack Diamond and **John H. McNeill**	889	Alterations of G protein function in cardiac tissues from streptozotocin-induced chronic diabetic rats
V. García Valencia, M. Gutierrez, B. Cantabrana and **A. Hidalgo**	897	Effects of androgens and antiandrogens on the inotropism induced by ouabain and isoproterenol on the left atrium of the rat *in vitro*
Roger Lennard and **Jaipaul Singh**	903	Effects of secretagogues on intracellular free calcium and magnesium concentrations in rat pancreatic acinar cells
H. Soncul, L. Gökgöz, K. Ayrancioglu, Ç. Karasu, S. Kalaycioglu and **A. Ersöz**	909	Effect of ATP and verapamil as cardioplegic additives in the isolated guinea pig heart
Mohammad-Reza Zarrindast, Taraneh Moini-Zanjani, Homa Manaheji and **Farinaz Fathi**	915	Influences of dopamine receptors on chewing behaviour in rats
T. A. McKean and **A. J. Branz**	921	Influence of ATP-sensitive potassium channel blocker on hypoxia-induced damage of isolated guinea pig heart

Vol. 23, No. 6

This issue includes a collection of papers on

NEURAL MECHANISMS OF GENERAL ANAESTHESIA

W. Winlow and **A. Angel**	925	Preface
J. Jessop and **J. G. Jones**	927	Evaluation of the actions of general anaesthetics in the human brain
C. S. Goodchild and **J. P. Gent**	937	Spinal cord effects of drugs used in anaesthesia
A. Angel and **Fiona LeBeau**	945	A comparison of the effects of Propofol with other anaesthetic agents on the centripetal transmission of sensory information
K. Krnjević	965	Cellular and synaptic actions of general anaesthetics
P. Charlesworth, G. Pocock and **C. D. Richards**	977	The action of anaesthetics on stimulus-secretion coupling and synaptic activity
W. Winlow, T. Yar, G. Spencer, D. Girdlestone and **J. Hancox**	985	Differential effects of general anaesthetics on identified molluscan neurones *in situ* and in culture
K. T. Wann and **A. P. Southan**	993	The action of anaesthetics and high pressure on neuronal discharge patterns
J. R. Elliott, A. A. Elliott, A. A. Harper and **J. P. Winpenny**	1005	Effects of general anaesthetics on neuronal sodium and potassium channels

M. J. Halsey — 1013 Molecular interactions of anaesthetics with biological membranes

ORDINARY PAPERS

Minireviews

Chris Prior, Ian G. Marshall and Stanley M. Parsons — 1017 The pharmacology of vesamicol: an inhibitor of the vesicular acetylcholine transporter

Gary B. Glavin — 1023 Dopamine: a stress modulator in the brain and gut

G. Tunnicliff — 1027 Significance of γ-hydroxybutyric acid in the brain

General Papers

D. I. Wallis and J. Wu — 1035 Fast and slow ipsilateral and contralateral spinal reflexes in the neonate rat are modulated by 5-HT

Karen A. Kirkpatrick and Geoffrey Burnstock — 1045 Evidence that the inhibition of ATP release from sympathetic nerves by adenosine is a physiological mechanism

J. L. Martinez and M. Penna — 1051 Influences of changes in calcium concentration and verapamil on the cardiac depressant effect of ethanol in cat papillary muscle

Michiko Goroumaru-Shinkai, Rie Yamamoto, Norio Funayama and Issei Takayanagi — 1057 Regional differences of the contractile responses to acetylcholine and neurokinin A in rabbit airway: heterogenous distribution of the metabolic enzymes

Stella Maris Celuch, Agustín J. Ramirez and María Amelia Enero — 1063 Activation of 5-HT_2 receptors inhibits the evoked release of [^{3}H]noradrenaline in the rat spinal cord

Alessandro Chinellato, Eugenio Ragazzi, Luisa Pandolfo, Guglielmina Froldi, Laura Caparrotta and Giuliana Fassina — 1067 Pharmacological characterization of a new purinergic receptor site in rabbit aorta

Tsutomu Araki, Fumie Murakami, Yasuo Kanai, Hiroyuki Kato and Kyuya Kogure — 1073 Autoradiographic analysis of dopamine D_1 receptors in the gerbil brain following transient cerebral ischemia

Heng-Yi Guo, Robert R. Lorenz, Tony J. Verbeuren and Paul M. Vanhoutte — 1079 Effects of S-11701 on accumulation, release and metabolism of norepinephrine in isolated canine saphenous veins

Terriann Crisp, Janet L. Stafinsky, V. C. Perni and Marc Uram — 1087 The noradrenergic component contributing to spinal fentanyl-induced antinociception is supraspinally mediated

Hisashi Onoue, Nobuyoshi Kaito, Syogo Tokudome, Tetsuro Irikura, Kazunori Okada, Toshiaki Abe and Norio Nakamura — 1093 The potentiating effect of KC-404 on prostacyclin-induced vasodilation in isolated human cerebral artery

Hiroyasu Satoh — 1097 Inhibition in L-type Ca^{2+} channel by stimulation of protein kinase C in isolated guinea pig ventricular cardiomyocytes

Hiroyasu Satoh, Katsuharu Tsuchida, Katsuyoshi Kaneko and Susumu Otomo — 1103 Comparative mechanical and electrical actions of A23187 and X-537A in canine Purkinje fibers

G. M. Lew — 1111 Microtubular tau protein after cocaine in cultured SH-SY5Y human neuroblastoma

Xaviera Garcia, Manuel de la Llata and Enrique Gijon — 1115 Effect of the length of degenerating phrenic nerve fibres on the anaphylactic contraction of the diaphragm

Z. Szreder — 1121 Do central mechanisms participate in the thermoregulatory activity of prazosin?

Dorlete L. N. Bispo and **Oduvaldo C. M. Pereira**	1125	Involvement of swimming-induced acute stress in the sensitivity of rat vas deferens to norepinephrine
J. Liu, A. Slomiany and **B. L. Slomiany**	1129	Effect of sucralfate on gastric mucosal calcium channels activity
M. Romero, M. L. Laorden, J. Hernández and **J. S. Serrano**	1135	Effects of morphine on isolated right atria of the rat
Mauricio Lobos, Yolanda Borges, Ernesto González and **Bruce K. Cassels**	1139	The action of the psychoactive drug 2C-B on isolated rat thoracic aorta
F. Orallo, J. A. Fontenla, M. I. Loza, M. Campos and **J. M. Calleja**	1143	Effect of urethane on hydralazine-induced tachycardia in rats
Z. Sevim Ercan, Mustafa Ilhan, Aydın Oğuz and **R. Kazım Türker**	1149	Superoxide dismutase and allopurinol prevent the pressor effects of angiotensin II and histamine in the guinea-pig isolated perfused lung exposed to hypoxia
Jerry A. Miller, Paula A. Chmielewski and **David Rampe**	1153	[^{3}H]PN200-110 and [^{3}H]glibenclamide binding in normal and cardiomyopathic hamsters
Pius Joseph, T. Shivanandappa, K. Narasimhamurthy and **M. K. Krishnakumari**	1159	Effect of vitamin A on hexachlorocyclohexane (HCH) toxicity in the rat
Wai-Man Lau and **Maria Szilagyi**	1165	A pharmacological profile of glycopyrrolate: interactions at the muscarinic acetylcholine receptor
M. Ferrer, A. Encabo, J. Marín and **G. Balfagón**	1171	Vasoconstrictive effects of angiotensin I and II in cat femoral arteries. Role of endothelium
Ali A. Mustafa	1177	Mechanisms of L-N^G-nitro arginine methyl ester-induced antinociception in mice: a role for serotonergic and adrenergic neurons
M. Bansinath, W. Warner, C. K. Tang, H. Turndorf and **M. M. Puig**	1183	On the mechanism of the interaction of ketamine and halothane *in vitro*
Ichiro Wakabayashi, Katsuhiko Hatake and **Kunihiro Sakamoto**	1189	Ammonium ion increases the tone of rat portal vein
C. R. Gardner, R. A. Ward, R. M. J. Deacon, J. Bagust and **R. J. Walker**	1193	Effects of RU33368, a low affinity ligand for neuronal benzodiazepine receptors, on rodent behaviours and GABA-mediated synaptic transmission in rat cerebellar slices
Hemendra N. Bhargava, Vincent M. Villar, Nafasat H. Rahmani and **A. Karl Larsen**	1199	Studies on the possible role of pharmacokinetics in the development of tolerance to morphine in the rat
Giovambattista De Sarro, Claudio Ascioti, Eugenio Donato di Paola, Maria J. Vidal and **Angela De Sarro**	1205	Effects of antiepileptic drugs, calcium channel blockers and other compounds on seizures induced by activation of voltage-dependent L calcium channel in DBA/2 mice
Daniel J. Calvo, Omar Tumilasci and **Jorge H. Medina**	1217	Ethanol and the peripheral benzodiazepine receptor: *in vivo* and *in vitro* experiments
Mohammad-Reza Zarrindast and **Afshin Zarghi**	1221	Morphine stimulates locomotor activity by an indirect dopaminergic mechanism: possible D-1 and D-2 receptor involvement
Book Reviews	1227
